

In re: Application Prieels, J.P et al., et al.  
Group Art Unit: 1203 (Tent.)

B2  
11. (As amended) A method of treating a mammal suffering from cancer comprising the administration of a safe and effective amount of a composition according to [any of claims 1 to 5] claim 1.

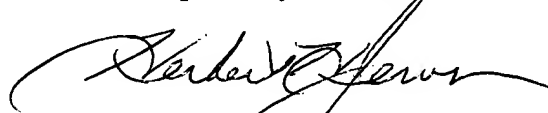

12. (As amended) A process for making a vaccine composition according to [claims 1 to 5] claim 1 comprising admixing QS21 and 3D-MPL with an antigen [or], antigenic composition or combination thereof.

### REMARKS

After this amendment, Claims 1-12 are currently pending. This continuation application continues prosecution of claims in parent application 08/356,372, filed February 17, 1995.

Applicants have amended the claims to put them in conformity with the U.S. practice. No new matter has been introduced. In view of this conforming amendment Applicants believe all claims are in condition for allowance and such action is respectfully requested.

Respectfully submitted,
